Total Segments: 442

Speaker B (00:00:00 - 00:00:21)

are a big part of our community and those are fully available to all of our full full term students as well as our affinities bases. So those are another place on campus where students find community with like minded and like with peers that really share a part of their identity that is exciting and exciting to bring to campus.

Speaker B (00:00:21 - 00:00:31)

So those are two things that come to mind. Additionally, sorry, I'm looking down at the list of things but I don't want to miss anything. I know I will though.

Speaker B (00:00:31 - 00:00:46)

Our vertical housing and our dormitory, what that means is that we have all years in all of our dormitories. So freshman sophomore, junior seniors, we call them prep slower, uppers and seniors as well as our post graduates are in all of our dorm communities.

Speaker B (00:00:46 - 00:01:04)

And we find that that's a really wonderful way for our students to get to know everyone on campus, get a view, get a line of sight into what upperclassmen are doing, what they're engaged in, the work that they're doing, the classes they're taking, the things that they're excited about right off the bat as as crafts and as freshmen.

Speaker B (00:01:04 - 00:01:17)

But also have opportunities to connect with people who have been in your shoes before, who have experienced being away from home for the first time and maybe where do I do my laundry, where do I what dining halls open really connect with those resources as well.

Speaker B (00:01:17 - 00:01:27)

And kind of like the clubs and activities, that's a really wonderful opportunity for upperclassmen to engage in leadership opportunities as proctors, as peer listeners.

Speaker B (00:01:27 - 00:01:43)

People in the dormitories who are there for our students from day one who are trained by our staff, by our center for student support and mental health and wellness who are able to really step in and be those first people who you're students see when they arrive on campus.

Speaker B (00:01:43 - 00:01:51)

So that's a really exciting thing that happens on our campus as well. Athletic competitions are exciting parts.

Speaker B (00:01:51 - 00:02:10)

One of the things about Phil's Exeter is it's really important to our community that students experience what's like to be on a team and whether that team is in athletics, whether that's dance, whether that's theater, it's a group, it's a dance troupe, it's an ensemble, it's an opportunity to work in community with one another towards a common goal.

Speaker B (00:02:10 - 00:02:21)

But it doesn't necessarily have to be athletics, but it certainly is an important part of the student experience or sports run fall in the winter and then spring.

Speaker B (00:02:21 - 00:02:31)

The sports that you can think of I'm sure are available. Please take a look on our website for more specifics about that. But what's exciting is that we have all different levels.

Speaker B (00:02:31 - 00:02:44)

So like I said at the beginning, I coach the JB girl soccer team and I have seniors on my team who have been on the team for four years, as well as freshmen who have just come in and want to try something new and be a part of the community in the fall.

Speaker B (00:02:44 - 00:02:52)

It's one of my favorite roles on campus and it's really, really just so much fun. So we encourage all of our students to try out for new sport, even if they're new to it.

Speaker B (00:02:52 - 00:03:02)

Additionally, to varsity and JV, some of our sports have thirds teams. So JV, two teams that also are competitive, just at a smaller schedule.

Speaker B (00:03:02 - 00:03:14)

We compete on Wednesdays and on Saturdays typically for all of athletics and we have a half day academically so that students are not missing academics to be able to compete in the sport that they're also competing for for school.

Speaker B (00:03:14 - 00:03:25)

So that's another thing that's a little different than exit or summer, but also share some of the stepping out of your comfort zone and trying something new, if that's what your students experiencing now.

Speaker B (00:03:25 - 00:03:32)

And then Colton touched on this a bit, but the academic piece changes. It is your students are getting a good taste of it.

Speaker B (00:03:32 - 00:03:51)

A bit of harkness of the rigor of learning time management skills and we certainly don't expect that students are going to step on our campus fully ready to manage all their time and do everything independently in their tremendous resources to help them in the process, but it is five courses a semester is a full workload.

Speaker B (00:03:51 - 00:04:04)

So that workload picks up. We like to support students in becoming independent and self advocates learning how to reach out to learning center or their advisors or their teachers when they're feeling overwhelmed.

Speaker B (00:04:04 - 00:04:12)

Or when they are not feeling like they have a grasp of concepts, those are some really wonderful resources that we like to encourage them to reach out to.

Speaker B (00:04:12 - 00:04:21)

Like we said, your students are already getting a good experience with that, but thinking about those five courses is something that students prepare for.

Speaker B (00:04:21 - 00:04:28)

If your student is applying as a prep in the prep in prep fall, grades are pass fail for the first term.

Speaker B (00:04:28 - 00:04:41)

So that for the first half of the term so that students really have several weeks to adjust a harkness, really be able to get their feet under them, adjust the living away from home and all the different changes that are going on before grades become a part of their experience.

Speaker B (00:04:41 - 00:04:59)

So if you're considering coming in as a freshman or you're considering reclassing or we can talk about that process and what that might look for your family individually, but that's just a difference as well between what we offer in the fall for our freshman.

Speaker B (00:05:00 - 00:05:10)

And I know that this is a lot of information and covers so many different things about our community and our campus so I'm happy to answer questions we are we are all happy to answer questions about that.

Speaker B (00:05:10 - 00:05:24)

But there is a lot of overlap between the summer and the school that is there to experience and there's there's just more there's more resources more opportunities more things to dive into during the full term.

Speaker A (00:05:24 - 00:05:42)

Thanks, I leaned yeah and I'm seeing some questions come in on the Q&A; so obviously we're sharing very general overviews and and guidelines and things like that but ask your specific questions will do our best to get to those so if you do have specific questions ask those in the Q&A; we're going to try to get to those.

Speaker A (00:05:42 - 00:06:02)

But we went over some key differences in similarities but obviously this is an admissions focused event where all admission officers in the admission office so let's talk about the application process and what the admission process looks like for our students and for our family so I touched on it already.

Speaker A (00:06:02 - 00:06:24)

The process has begun in July so part one for all of our students all students interested in applying to Phillips Exeter Academy will begin with part one at the gateway to prep schools application portals so gateway to prep schools is the starting point for many of the schools in our area in our consortium in the 10 schools admission organization.

Speaker A (00:06:24 - 00:06:50)

So from there you will fill out the candidate profile or your child your student will fill out the candidate profile that's going to be biographical information home address school background current grade things like that siblings biographical information so that's called the candidate profile once that's completed there's going to be a drop down list of what schools your family wants to apply to.

Speaker A (00:06:50 - 00:07:15)

Hopefully Exeter is on that list but please select Exeter if you're interested in applying to Exeter and then from there each school within about 24 hours usually will send you their individual portal application portal credential credentials and login information so from there you're going to be able to create your individual application credentials to each portal for every school you're going to be applying to.

Speaker A (00:07:15 - 00:07:24)

Exeter has its own application portal so part one is gateway to prep schools part two is getting in to the Exeter application portal.

Speaker A (00:07:24 - 00:07:43)

From there there's going to be a list of application requirements you can find our application requirements all over the admission section of the website and in our office for example but to talk a little bit about some of those application requirements starting off with student essays.

Speaker A (00:07:43 - 00:08:07)

And I'm going to put a little pressure on you because I overheard you giving great advice about the student essays I think to a family the other day but would you mind sharing your advice for students responding to the essay or you know we often hear what are what are we looking for what's the application to what's the admission committee looking for so some insight to the essay I think would be much appreciated absolutely.

Speaker C (00:08:07 - 00:08:25)

First and foremost we look for the well-rounded student and one with goodness and kindness every child is different they have individual passions with the essays have them be genuine be honest and bring up something that might not come out you know that a teacher recommendation.

Speaker C (00:08:25 - 00:08:51)

Are the transcripts my show but have them really show us in their words and in their heart what are they passionate about and what makes your child unique and the more ways that you can encourage your children to be themselves and through their writing to truly try to give us the essence of their own words and that would be something that the essays are really helpful for us.

Speaker A (00:08:51 - 00:09:20)

Yeah absolutely couldn't agree more and the students are the only ones that we asked to do some writing for us for our team we also asked for a parent statement so the parent statement can also be accessed on the students applicant portal we do have a prompt asking you to tell us a little bit more information from your perspective you know we're getting perspective from a lot of other people in the students lives which which I think we'll cover i'm going to ask her to talk about letters of recommendation but we're going to hear perspective.

Speaker A (00:09:20 - 00:09:48)

We're going to hear perspectives from a lot of people in the students lives but we also want to hear your perspective who knows them better than the parent so we want to hear your perspective you know what's important to you what are some of the reasons that you know your family your child are exploring this option you know is there any context that might as as and said might not come out elsewhere in the application you know can you provide that context for us so we're going to ask you to do some writing as well.

Speaker A (00:09:48 - 00:09:58)

In the parent statement but like I mentioned already recommendations to if you don't mind only uncovering letters of recommendation absolutely so letters of recommendation.

Speaker B (00:10:00 - 00:10:08)

on our application, so there's two parts to the recommendation letters.

Speaker B (00:10:08 - 00:10:10)

There's two required recommendation letters.

Speaker B (00:10:10 - 00:10:17)

One is from the current English teacher of your student and the other and from the current math teacher from your student.

Speaker B (00:10:17 - 00:10:21)

And then there's the optional letters of recommendation where your student can choose who writes for them.

Speaker B (00:10:21 - 00:10:28)

And those are the personal recommendation and the special interest recommendation, which is an optional supplemental recommendation for the application.

Speaker B (00:10:28 - 00:10:37)

So dividing those two in between what we require being the English teacher in the math recommendation of your student's current teacher.

Speaker B (00:10:37 - 00:10:57)

And then your student can choose an adult who's a part of their life who knows them, who can speak to them as a learner or as an athlete as a musician as a someone who's really into service as a business entrepreneur, whatever capacity your student feels really excited about has someone who can speak to that experience.

Speaker B (00:10:57 - 00:11:06)

That's where that personal recommendation is really really helps us paying a full picture of what your student is involved in and interested in and passionate about.

Speaker B (00:11:06 - 00:11:13)

We feel really strongly that the math recommendation that the English recommendation, we understand that we're in summer.

Speaker B (00:11:13 - 00:11:22)

And so you're thinking about this and going into the school year and it would be really great if they could have the teachers known them for three years as opposed to the teacher who they're just about to know.

Speaker B (00:11:22 - 00:11:34)

And we do understand that kind of tension, but we also really feel like those are the people who are in the classroom every day who are preparing the student for their next year.

Speaker B (00:11:34 - 00:11:39)

And for this application, so it does need to be a current current teacher.

Speaker B (00:11:39 - 00:11:47)

We always recommend in admissions when we have conversations with families that if that relationship isn't fully formed yet, that's okay.

Speaker B (00:11:47 - 00:11:52)

There's no benefit to getting those letters of recommendation in early.

Speaker B (00:11:52 - 00:11:57)

You can wait until December, you can wait until November kind of when your student gets to know those teachers.

Speaker B (00:11:57 - 00:12:37)

And we also get questions about well, I am at a larger school and I have a student isn't really particularly do know your students and trying to give as many possibilities as we can to make that come to light.

Speaker B (00:12:37 - 00:12:42)

So introducing, you can encourage your student to introduce themselves to the teacher early.

Speaker B (00:12:42 - 00:12:52)

If they know these applications are coming up, have conversations early, be proactive so that they can get on their radar and get those recommendations in when it feels right for you and your family.

Speaker B (00:12:52 - 00:13:03)

So taking advantage of those other other adults in their lives to speak to their full range of interests is really helpful in the admissions process.

Speaker A (00:13:03 - 00:13:14)

Absolutely, absolutely. Well, thanks, Eileen. And another and like Eileen mentioned, you know, we do require those to be current classroom teachers for the math teacher for the English teachers.

Speaker A (00:13:14 - 00:13:20)

So in fact, those letters won't even go live. You can't even request a letter of recommendation from those teachers until October.

Speaker A (00:13:20 - 00:13:25)

So again, we have time. We are early in this process.

Speaker A (00:13:25 - 00:13:31)

But another required letter of recommendation is going to be the principal or school counselor letter of recommendation.

Speaker A (00:13:31 - 00:13:40)

And like Eileen said, you know, that doesn't always mean necessarily a principal or had a school if it's a larger school could be someone's advisor or something like that.

Speaker A (00:13:40 - 00:13:43)

There are questions there reach out to our team.

Speaker A (00:13:43 - 00:14:04)

We also understand in larger schools, not every principal or had a school might not know every single student, but rest assured that at a school that principal will hopefully speak to that students teachers and speak to their overall performance at the school, things like attendance and things like that.

Speaker A (00:14:04 - 00:14:12)

So that's another letter of recommendation, but also great advice to about the personal letter of recommendation special interest letter of recommendation as well.

Speaker A (00:14:13 - 00:14:20)

Interviews, so an interview can be obviously a nerve wracking thing for anybody.

Speaker A (00:14:20 - 00:14:28)

I remember being in the student shoes when I was interviewing at schools and I remember interviewing for this job. I was probably even more nervous.

Speaker A (00:14:28 - 00:14:40)

So the interview is a big part of the application process, but as you will pick up on, we ask for a lot of information, we value a holistic admission process application process.

Speaker A (00:14:40 - 00:14:47)

We want to get to know the students from their teachers. We want to hear their voice and their essays, we want to hear their parent perspective.

Speaker A (00:14:47 - 00:14:51)

We also want to have a conversation with the students and that's accomplished in the interview.

Speaker A (00:14:51 - 00:14:57)

So we offer two different options for the interview and we do require interviews for every student that applies to Exeter.

Speaker A (00:14:57 - 00:15:02)

We offer an in-person interview. We also offer an online interview.

Speaker A (00:15:02 - 00:15:13)

Your students will have received a few messages from our office with information of how to register for appointments that we've set aside specifically for Exeter summer students.

Speaker A (00:15:13 - 00:15:28)

They're not excused from class, but if it accommodates their schedule, they're able to interview with our office. Our office is open in the summer, but we also have interview appointments open throughout the fall into the winter all the way up to our January 15th application deadline.

Speaker A (00:15:28 - 00:15:36)

There's also the online interview option. That will be done with either an admission officer, a faculty member or an alumni.

Speaker A (00:15:36 - 00:15:43)

But Anne, if you don't mind, I also heard great advice for the students at our information session, I think last week on the interview.

Speaker A (00:15:43 - 00:15:50)

If you don't mind, can you share your advice to those students because we want the parents to also reiterate this too?

Speaker C (00:15:50 - 00:16:05)

It's so important. Please reassure your children to relax. It's a very relaxed conversation. We are mothers, teachers, coaches, and we're there to help your child feel as comfortable as possible.

Speaker C (00:16:05 - 00:16:15)

And that being said, just have them breathe deep and be genuine. Don't feel that they need to come in with a script and that they just need to speak from their heart, be honest.

Speaker C (00:16:15 - 00:16:25)

And just truly talk about their passions and perhaps bring up during the interview, something that might not come out in a recommendation letter or just something really unique.

Speaker C (00:16:25 - 00:16:32)

And something that might really just spark, you know, for us, part of the conversation to get them to truly open up.

Speaker C (00:16:32 - 00:16:40)

And if they are nervous, please reassure them that they shouldn't be. That we're mothers and fathers and coaches and teachers.

Speaker C (00:16:40 - 00:16:46)

And we're here to support you and your children and we're a big family, so they should not be nervous.

Speaker A (00:16:46 - 00:16:56)

Thanks, Anne. And I'm going to put pressure on you too. Any advice for students and families for the interview? I know families love students love interviewing with you.

Speaker B (00:16:56 - 00:17:08)

I think that that's true for both of you as well. I think that like Ann said, we're people we care about the students that we have in front of us.

Speaker B (00:17:08 - 00:17:16)

It takes an incredible amount of bravery at the age 14, 15, 16, 17 to sit down in front of a stranger and talk about yourself.

Speaker B (00:17:16 - 00:17:27)

And so we really, we believe in that. We know that and it's a conversation aimed towards just getting to know your student better

Speaker B (00:17:27 - 00:17:32)

in whatever capacity that is. I'm seeing some questions about what a typical profile looks like.

Speaker B (00:17:32 - 00:17:44)

What we're looking for, I think what I share with families is that I think that we are looking for students who are passionate, but that doesn't have to be about.

Speaker B (00:17:44 - 00:17:51)

We're not expecting students to come in ready to know what they want to do with their lives. We're looking for people who are open minded and curious.

Speaker B (00:17:51 - 00:18:06)

Harkness is the theme of our whole community, not just our classrooms, and the students that we find are the most successful are the ones who are able to dive into that community with curiosity and bring themselves into that space, no matter what, no matter what that looks like.

Speaker B (00:18:06 - 00:18:15)

It doesn't look one way for everyone. And so I hope that the interview feels very conversational because that's what that's what we aim for.

Speaker B (00:18:15 - 00:18:21)

We're just aiming to get to know your student a little bit better in the short time that we can.

Speaker B (00:18:21 - 00:18:26)

And I think the biggest piece of advice and already said it, but just being yourself.

Speaker B (00:18:26 - 00:18:34)

Where ourselves in our jobs and in our in our communities. And so I think that that's the best advice that you can give your children as well as just to be.

Speaker B (00:18:34 - 00:18:39)

Be themselves and answer answer as answer as themselves.

Speaker A (00:18:39 - 00:18:50)

Absolutely. Well, thank you both and I appreciate that because we're also going to talk about some of the less fun and less enjoyable parts of the application process.

Speaker A (00:18:50 - 00:18:53)

And that is transcripts and standardized testing.

Speaker A (00:18:53 - 00:19:03)

So we love the interview as you can tell. Interviews are a very joyful part of the process, but something that is also nerve-wracking for students and for families and for parents.

Speaker A (00:19:03 - 00:19:07)

Sometimes more for parents is standardized testing and transcripts.

Speaker A (00:19:07 - 00:19:19)

So we do ask for transcripts. We ask for two years of most recent transcripts. Obviously we'll be getting probably half of a progress report a semester or two quarters.

Speaker A (00:19:19 - 00:19:30)

What have you up until that winter break and then we ask for completed grades once that application process is going, but we also ask for the previous year transcripts.

Speaker A (00:19:30 - 00:19:41)

If a student is in a non-English speaking school within the past two years, we do not require duolingo or tofu or language proficiency tests.

Speaker A (00:19:41 - 00:19:50)

But if a student has not been in an English speaking school for the past two years, we recommend including that if anything to strengthen the student's application.

Speaker A (00:19:50 - 00:19:59)

But again, that is not required. We do not require students language proficiency test, but if a student has been in a non-English speaking school, then that could be...

Speaker A (00:20:00 - 00:20:05)

a great resource for students, standardized testing.

Speaker A (00:20:06 - 00:20:09)

Many of our students, especially for Exeter Summer,

Speaker A (00:20:09 - 00:20:12)

will probably be applying as perhaps as ninth graders,

Speaker A (00:20:12 - 00:20:15)

but just to be clear, we accept students at all grade levels.

Speaker A (00:20:15 - 00:20:18)

We deliberately add students at all grade levels,

Speaker A (00:20:18 - 00:20:22)

perhaps lowers, uppers, and postgraduate students,

Speaker A (00:20:22 - 00:20:24)

even someone your seniors, for example.

Speaker A (00:20:24 - 00:20:26)

So we're adding students at all grade levels,

Speaker A (00:20:26 - 00:20:28)

but most of students from Exeter Summer

Speaker A (00:20:28 - 00:20:30)

will be applying as perhaps.

Speaker A (00:20:30 - 00:20:33)

So that's either gonna be ISEE or S-S-A-T.

Speaker A (00:20:33 - 00:20:35)

There's no advantage one way or the other,

Speaker A (00:20:35 - 00:20:38)

one is not valued more over the other.

Speaker A (00:20:38 - 00:20:42)

We accept both because both have different levels

Speaker A (00:20:42 - 00:20:43)

of accessibility for students,

Speaker A (00:20:43 - 00:20:46)

especially domestic and international families,

Speaker A (00:20:46 - 00:20:48)

pro-metric testing centers, online testing,

Speaker A (00:20:48 - 00:20:49)

things like that.

Speaker A (00:20:49 - 00:20:51)

So we have some flexibility there.

Speaker A (00:20:51 - 00:20:54)

As students get older, we accept more tests.

Speaker A (00:20:54 - 00:20:59)

For example, ACT, PSAT, test like that.

Speaker A (00:21:01 - 00:21:04)

If you have any questions about what tests we accept,

Speaker A (00:21:04 - 00:21:05)

check our website.

Speaker A (00:21:05 - 00:21:09)

There's a great table which outlines what tests we accept

Speaker A (00:21:09 - 00:21:12)

for what grade levels, and if there's any questions,

Speaker A (00:21:12 - 00:21:13)

as always, email our team.

Speaker A (00:21:13 - 00:21:15)

We're happy to help there.

Speaker A (00:21:17 - 00:21:22)

I think we covered our application materials.

Speaker A (00:21:22 - 00:21:24)

Am I missing anything, Anne or Eileen?

Speaker A (00:21:24 - 00:21:29)

I think we got through it.

Speaker A (00:21:29 - 00:21:32)

As you can imagine, or as you can tell,

Speaker A (00:21:32 - 00:21:35)

we do ask for a lot, but my advice,

Speaker A (00:21:35 - 00:21:38)

and if you don't mind Anne and I'm gonna ask you guys

Speaker A (00:21:38 - 00:21:40)

to share a tip to after I'm done,

Speaker A (00:21:40 - 00:21:43)

but my advice for families is enjoy the process.

Speaker A (00:21:44 - 00:21:47)

Learn as much about this school,

Speaker A (00:21:47 - 00:21:50)

but also other schools as you possibly can.

Speaker A (00:21:50 - 00:21:52)

If anything to tell you that Exeter is the right spot

Speaker A (00:21:52 - 00:21:54)

for your student and your right family,

Speaker A (00:21:54 - 00:21:56)

as I'm sure is the case.

Speaker A (00:21:56 - 00:21:59)

But if not to find a school that has another program

Speaker A (00:21:59 - 00:22:01)

or something that a student's really passionate about,

Speaker A (00:22:01 - 00:22:05)

we are incredibly privileged to be at a school like Exeter,

Speaker A (00:22:05 - 00:22:08)

but there are so many incredible schools out there,

Speaker A (00:22:08 - 00:22:10)

so many unique places for our students.

Speaker A (00:22:10 - 00:22:13)

So explore all the schools, enjoy the process,

Speaker A (00:22:13 - 00:22:15)

get to know the school as well as you can,

Speaker A (00:22:15 - 00:22:16)

and that's my advice.

Speaker A (00:22:16 - 00:22:17)

And you've got a lot of time.

Speaker A (00:22:17 - 00:22:18)

If you're on this call tonight,

Speaker A (00:22:18 - 00:22:20)

you have a lot of time to complete this application

Speaker A (00:22:20 - 00:22:22)

before January 15th.

Speaker C (00:22:24 - 00:22:28)

And I would like to say that one thought

Speaker C (00:22:28 - 00:22:31)

is a lot of parents and students get so caught up

Speaker C (00:22:31 - 00:22:34)

with a score or a grade and they want to know exactly

Speaker C (00:22:34 - 00:22:36)

how do I get my child in.

Speaker C (00:22:36 - 00:22:40)

I don't believe a score or grade does not define a student

Speaker C (00:22:40 - 00:22:43)

that we look at a holistic approach to your child,

Speaker C (00:22:43 - 00:22:45)

what they're passionate about,

Speaker C (00:22:45 - 00:22:48)

if they love learning and the desires there.

Speaker C (00:22:48 - 00:22:51)

If there is something that might perhaps come through

Speaker C (00:22:51 - 00:22:54)

on transcripts or perhaps the standardized test

Speaker C (00:22:54 - 00:22:56)

that isn't quite what you feel that it should be,

Speaker C (00:22:56 - 00:22:58)

address it in the application process.

Speaker C (00:22:58 - 00:23:01)

You can send an attachment to explain it,

Speaker C (00:23:01 - 00:23:04)

but please don't get caught up on a grade or a score

Speaker C (00:23:04 - 00:23:07)

that we do look at at the full picture.

Speaker C (00:23:07 - 00:23:12)

We take a holistic approach looking at your child.

Speaker B (00:23:12 - 00:23:15)

And then lastly, I know that we've thrown a lot of information

Speaker B (00:23:15 - 00:23:20)

at you and we appreciate your patience and your thoughts.

Speaker B (00:23:20 - 00:23:22)

A couple of things for, I just want to touch

Speaker B (00:23:22 - 00:23:23)

on a financial aid a little bit.

Speaker B (00:23:23 - 00:23:26)

Our director of financial aid could not be on the call tonight,

Speaker B (00:23:26 - 00:23:29)

but Exeter's need blind and need based,

Speaker B (00:23:29 - 00:23:32)

meaning that your family's ability to pay or not

Speaker B (00:23:32 - 00:23:34)

has no bearing on their admittance to the school.

Speaker B (00:23:34 - 00:23:35)

As officers in reading,

Speaker B (00:23:35 - 00:23:38)

we actually aren't aware of students' financial background

Speaker B (00:23:38 - 00:23:40)

when we're making our decisions.

Speaker B (00:23:40 - 00:23:44)

And being need based means that all families

Speaker B (00:23:44 - 00:23:47)

go through the same calculation for need

Speaker B (00:23:47 - 00:23:50)

and Exeter meets 100% of families demonstrated need

Speaker B (00:23:50 - 00:23:54)

in the admissions process, and that's true for all four years.

Speaker B (00:23:54 - 00:23:55)

So those are just things to consider.

Speaker B (00:23:55 - 00:23:57)

I know that they're very important

Speaker B (00:23:57 - 00:24:00)

and should be discussions in your families,

Speaker B (00:24:00 - 00:24:03)

but I just wanted to, if there are questions

Speaker B (00:24:03 - 00:24:06)

or if there's things that we can help answer about that,

Speaker B (00:24:06 - 00:24:09)

the interviews are absolutely a great time to ask about that

Speaker B (00:24:09 - 00:24:12)

as well as reaching out to those resources.

Speaker B (00:24:12 - 00:24:14)

They're very available for appointments

Speaker B (00:24:14 - 00:24:15)

or just to answer questions.

Speaker B (00:24:15 - 00:24:17)

So please feel free to reach out to our financial aid office

Speaker B (00:24:17 - 00:24:20)

if there's things that you're wondering about specifically.

Speaker B (00:24:21 - 00:24:26)

And I also wanted to just mention that some of your children

Speaker B (00:24:26 - 00:24:28)

might also might already be interviewing

Speaker B (00:24:28 - 00:24:31)

and might have signed up for an interview this week.

Speaker B (00:24:31 - 00:24:34)

And that's really exciting and wonderful.

Speaker B (00:24:34 - 00:24:37)

And we will be available to you throughout the process.

Speaker B (00:24:37 - 00:24:39)

So if your child interviews with one of us

Speaker B (00:24:39 - 00:24:43)

or anyone in our office or any one of our representatives,

Speaker B (00:24:43 - 00:24:45)

please feel free to then follow up with email

Speaker B (00:24:45 - 00:24:48)

with specific questions if you can't be there.

Speaker B (00:24:48 - 00:24:51)

This is, I think, like both my colleagues have said,

Speaker B (00:24:51 - 00:24:53)

this is an opportunity for us to get to know you,

Speaker B (00:24:53 - 00:24:56)

but it's also an opportunity for you to get to know us.

Speaker B (00:24:56 - 00:24:59)

Your children are the most important things in your lives

Speaker B (00:24:59 - 00:25:01)

and we take that responsibility seriously.

Speaker B (00:25:01 - 00:25:04)

And so if there's things that we can do in this process

Speaker B (00:25:04 - 00:25:05)

to help answer your questions,

Speaker B (00:25:05 - 00:25:07)

if there's things that come up between now

Speaker B (00:25:07 - 00:25:09)

and the very long time from now of January,

Speaker B (00:25:09 - 00:25:11)

please we want you to have the answers

Speaker B (00:25:11 - 00:25:13)

to the questions you're looking for.

Speaker B (00:25:13 - 00:25:18)

So we are resources to you as well in this process.

Speaker A (00:25:18 - 00:25:19)

Right?

Speaker A (00:25:19 - 00:25:19)

Fantastic.

Speaker A (00:25:19 - 00:25:21)

Well, thank you, Eileen and thank you, Ian.

Speaker A (00:25:21 - 00:25:24)

Just to wrap things up and I do see a lot of questions

Speaker A (00:25:24 - 00:25:27)

and we'll hand things over to answer questions now.

Speaker A (00:25:27 - 00:25:31)

But again, like we've said throughout this process,

Speaker A (00:25:31 - 00:25:32)

we're in the beginning of this process.

Speaker A (00:25:32 - 00:25:35)

The application went live today

Speaker A (00:25:35 - 00:25:37)

just to talk about next steps and next dates.

Speaker A (00:25:37 - 00:25:40)

So as we've mentioned, but I don't know if I've said it

Speaker A (00:25:40 - 00:25:42)

explicitly, but January 15th,

Speaker A (00:25:42 - 00:25:44)

there is our application deadline.

Speaker A (00:25:44 - 00:25:47)

We do not offer admission on a rolling basis.

Speaker A (00:25:47 - 00:25:49)

There's no advantage to students

Speaker A (00:25:49 - 00:25:52)

getting an application earlier than others.

Speaker A (00:25:52 - 00:25:56)

We do not begin reading until after January 15th.

Speaker A (00:25:56 - 00:25:58)

We've welcomed applications before then,

Speaker A (00:25:58 - 00:25:59)

but there's no advantage

Speaker A (00:25:59 - 00:26:01)

and you will not get the decision earlier.

Speaker A (00:26:01 - 00:26:05)

So January 15th is that application deadline.

Speaker A (00:26:05 - 00:26:08)

We ask for that all materials be submitted at that point.

Speaker A (00:26:08 - 00:26:11)

Obviously some schools might be delayed at transcript.

Speaker A (00:26:11 - 00:26:12)

So if there's any issue there,

Speaker A (00:26:12 - 00:26:14)

we ask that you reach out to our office,

Speaker A (00:26:14 - 00:26:17)

but we'll get to there and schools have their own.

Speaker A (00:26:19 - 00:26:20)

We've dealt with it before.

Speaker A (00:26:20 - 00:26:23)

So rest assured, we will handle that situation,

Speaker A (00:26:23 - 00:26:24)

especially when it comes to transcripts.

Speaker A (00:26:24 - 00:26:26)

But following January 15th,

Speaker A (00:26:26 - 00:26:28)

that's when we're reading applications.

Speaker A (00:26:28 - 00:26:29)

That's when we go into committee

Speaker A (00:26:29 - 00:26:31)

and make selection for our classes.

Speaker A (00:26:31 - 00:26:34)

And then on March 10th, we release decisions.

Speaker A (00:26:34 - 00:26:36)

It's the same for almost all of our schools

Speaker A (00:26:36 - 00:26:39)

in our consortium and the 10 schools of mission organization.

Speaker A (00:26:39 - 00:26:41)

We release decisions on March 10th.

Speaker A (00:26:41 - 00:26:44)

From there, all of our admitted students,

Speaker A (00:26:44 - 00:26:46)

so all the students that we accept,

Speaker A (00:26:46 - 00:26:50)

we offer admission to,

Speaker A (00:26:50 - 00:26:51)

are invited to come back to campus

Speaker A (00:26:51 - 00:26:56)

for one of four different revisit days during the spring.

Speaker A (00:26:57 - 00:26:59)

So we offer those days from students and families

Speaker A (00:26:59 - 00:27:02)

to choose from students, choose one of those revisit days

Speaker A (00:27:02 - 00:27:05)

out of the four to shadow classes

Speaker A (00:27:05 - 00:27:09)

with the current student to go to assembly and things like that.

Speaker A (00:27:09 - 00:27:13)

To get a taste of what a day looks like for our students.

Speaker A (00:27:13 - 00:27:17)

During the regular session, from there,

Speaker A (00:27:17 - 00:27:20)

we do ask for all family's decisions on April 10th.

Speaker A (00:27:20 - 00:27:24)

You got about a month to make your decision.

Speaker A (00:27:24 - 00:27:27)

And then from there, students finish out their year at in the summer.

Speaker A (00:27:27 - 00:27:28)

You're going to be receiving communication

Speaker A (00:27:28 - 00:27:33)

from the Dean's office about housing surveys,

Speaker A (00:27:35 - 00:27:37)

placement tests, things like that.

Speaker A (00:27:37 - 00:27:39)

So a lot happens.

Speaker A (00:27:40 - 00:27:43)

This is, again, this is a long process.

Speaker A (00:27:43 - 00:27:45)

We're at the beginning of this process.

Speaker A (00:27:45 - 00:27:46)

It does sneak up on you.

Speaker A (00:27:46 - 00:27:48)

So don't be afraid to start things early

Speaker A (00:27:48 - 00:27:51)

to be considering talking about with your student,

Speaker A (00:27:51 - 00:27:54)

with your child, who are we thinking for?

Speaker A (00:27:54 - 00:27:57)

Like Eileen said, that personal letter of recommendation,

Speaker A (00:27:57 - 00:27:59)

who knows you outside of your classroom teachers.

Speaker A (00:27:59 - 00:28:00)

I think that's great advice.

Speaker A (00:28:00 - 00:28:02)

So be thinking about that.

Speaker A (00:28:03 - 00:28:07)

Yeah, that's another important one.

Speaker A (00:28:08 - 00:28:10)

I don't think I'm forgetting any dates.

Speaker A (00:28:10 - 00:28:12)

Am I forgetting any dates, Eileen?

Speaker C (00:28:13 - 00:28:15)

You got it, Colton.

Speaker A (00:28:15 - 00:28:19)

All right, well, for now, I think we can go over to our questions.

Speaker A (00:28:19 - 00:28:22)

So I'm seeing we had a question.

Speaker A (00:28:22 - 00:28:27)

Is it okay to take standardized tests more than once?

Speaker A (00:28:27 - 00:28:29)

Eileen, and do you guys want to take that one?

Speaker A (00:28:29 - 00:28:31)

Talk about super scoring?

Speaker C (00:28:31 - 00:28:34)

Absolutely, we super score, which means your child can take it

Speaker C (00:28:34 - 00:28:37)

as many times as they would like,

Speaker C (00:28:37 - 00:28:39)

or if they feel that they can improve on it,

Speaker C (00:28:39 - 00:28:42)

then we choose the best score of each of the categories.

Speaker C (00:28:42 - 00:28:46)

So, but if you really feel that your child is happy

Speaker C (00:28:46 - 00:28:49)

with the results, there's no reason to keep pushing.

Speaker C (00:28:49 - 00:28:53)

Like I said, a score does not define your child.

Speaker C (00:28:53 - 00:28:56)

And some people think, do I have to have a perfect score

Speaker C (00:28:56 - 00:28:58)

to get into exit or absolutely not?

Speaker C (00:28:58 - 00:29:01)

We look at the whole picture, but we do super score.

Speaker C (00:29:01 - 00:29:04)

So if there's an area that your child needs to work on

Speaker C (00:29:04 - 00:29:06)

and would like to repeat and take the test,

Speaker C (00:29:06 - 00:29:11)

then we will pick the best scores from each category.

Speaker A (00:29:11 - 00:29:13)

Yeah, perfect.

Speaker A (00:29:13 - 00:29:15)

Another question that I'm seeing,

Speaker A (00:29:15 - 00:29:18)

and I know we've heard it from other students,

Speaker A (00:29:18 - 00:29:21)

talking about reclassing students maybe repeating a grade

Speaker A (00:29:21 - 00:29:23)

or following that natural trajectory,

Speaker A (00:29:23 - 00:29:25)

especially applying it as an older student.

Speaker A (00:29:25 - 00:29:28)

Eileen, do you want to speak to that a little bit

Speaker A (00:29:28 - 00:29:31)

about reclassing and what that looks like?

Speaker B (00:29:31 - 00:29:35)

Sure, so we, to clarify some of the questions

Speaker B (00:29:35 - 00:29:37)

that we're seeing, we accept applications,

Speaker B (00:29:37 - 00:29:39)

and we do accept students for every grade,

Speaker B (00:29:39 - 00:29:42)

including our postgraduate, which is postgraduates

Speaker B (00:29:42 - 00:29:45)

or students who are completing a one year program at Exeter

Speaker B (00:29:45 - 00:29:47)

who have graduated from a different high school.

Speaker B (00:29:47 - 00:29:49)

So they're not PEA grads,

Speaker B (00:29:49 - 00:29:52)

they have graduated from their programs,

Speaker B (00:29:52 - 00:29:53)

and they are coming to us for a year

Speaker B (00:29:53 - 00:29:56)

before going off to college.

Speaker B (00:29:56 - 00:29:59)

And kind of like a postgraduate year,

Speaker B (00:29:59 - 00:30:00)

people...

Speaker B (00:30:00 - 00:30:04)

Some families consider reclassing, which means that a student has completed their 9th,

Speaker B (00:30:04 - 00:30:09)

10th, or 11th grade year and would like to repeat that year at Exeter.

Speaker B (00:30:09 - 00:30:14)

So that would mean if your child right now is a 10th grader going into this fall,

Speaker B (00:30:14 - 00:30:18)

that they would reapply as a 10th grader starting next fall at PEA.

Speaker B (00:30:20 - 00:30:24)

There are a lot of different reasons that families decide to reclass.

Speaker B (00:30:25 - 00:30:30)

Sometimes it has to do with families moving and they want their student to get four years

Speaker B (00:30:30 - 00:30:36)

at the same place rather than kind of a couple of years here and there.

Speaker B (00:30:36 - 00:30:40)

There are families who decide that they want another year of growth before re-entering

Speaker B (00:30:40 - 00:30:45)

into a repeat year. It really, those are just two examples. I know I'm missing so many.

Speaker B (00:30:45 - 00:30:48)

There's so many different reasons that families choose to reclass.

Speaker B (00:30:49 - 00:30:56)

And in the admissions process, we offer that because we find that it's a great

Speaker B (00:30:57 - 00:31:03)

accessibility option for families. It's not something that we expect or that we are hoping that

Speaker B (00:31:03 - 00:31:06)

everyone does, but it is an option because that is the best fit for some families.

Speaker B (00:31:06 - 00:31:11)

So if you have a student who you really think would benefit from an additional year or

Speaker B (00:31:12 - 00:31:15)

you're looking at Exeter and thinking, oh wow, that would be great to get into that program for

Speaker B (00:31:15 - 00:31:21)

an extra year or they're really interested in something that would fulfill their learning.

Speaker B (00:31:22 - 00:31:30)

That's a reason to think about reclassing. So that is indicated in your application and I will

Speaker B (00:31:30 - 00:31:37)

also add that it's an important conversation to have because we cannot guarantee that if your

Speaker B (00:31:37 - 00:31:42)

student is applying in 10th grade and gets in as an 11th grader, that they will then be able to

Speaker B (00:31:42 - 00:31:48)

reclass as a 10th grader once they are admitted. So it's a really important conversation to have before

Speaker B (00:31:48 - 00:31:54)

kind of you decide in your application what class you are applying to. Again, what just thinking

Speaker B (00:31:54 - 00:32:01)

numbers, our biggest class of new students is our freshmen or our press. We have a large cohort that

Speaker B (00:32:01 - 00:32:07)

joins in 10th grade as well as lowers and that cohort gets a little bit smaller as the grades go on

Speaker B (00:32:07 - 00:32:12)

and the school is a little bit more tight and full in those later years. So those are just things to

Speaker B (00:32:12 - 00:32:16)

consider if you have, if that's on your mind, if you have more questions about that, absolutely,

Speaker B (00:32:16 - 00:32:22)

talk to someone in our office about what that might look like and we can answer specific questions

Speaker B (00:32:22 - 00:32:26)

about that. But that's just when you hear us talking about reclass, that's that process and that's

Speaker A (00:32:26 - 00:32:33)

what we're talking about. Yeah, yeah, absolutely. And just to add on that too, there's no

Speaker A (00:32:33 - 00:32:37)

advantage one way or the other, like I said, it's going to be what's right for that family,

Speaker A (00:32:37 - 00:32:41)

what's right for the student, whether that's maximizing their time or any of the other number of

Speaker A (00:32:41 - 00:32:49)

reasons that a student might choose to reclass. We sue students who will choose to reclass and repeat

Speaker A (00:32:49 - 00:32:54)

that ninth grade year, that prep year, other years, or follow that natural trajectory. Ultimately,

Speaker A (00:32:54 - 00:32:59)

we just ask that your family and the student makes that decision by the time you submit your application

Speaker A (00:32:59 - 00:33:06)

of what grade they're applying for on January 15th. And after the interview, it's a great conversation

Speaker A (00:33:06 - 00:33:12)

to have between an admission officer and the student and the family as well. And keeping an eye on our

Speaker A (00:33:12 - 00:33:18)

time, the biggest theme that I saw from other questions was talking a little bit about athletic,

Speaker A (00:33:20 - 00:33:24)

you know, students who are athletes, students who are interested in applying and getting in contact

Speaker A (00:33:24 - 00:33:31)

with coaches. So yes, we of course have, as I think we've all touched on from the beginning of our

Speaker A (00:33:31 - 00:33:37)

conversation, there are athletic opportunities during the summer, but those are even more

Speaker A (00:33:37 - 00:33:42)

extensive, incredible athletic opportunities during the regular session. And we do have students who

Speaker A (00:33:43 - 00:33:48)

do want to continue to play sports at a high level and get to know our coaches and the teams and the

Speaker A (00:33:48 - 00:33:54)

athletes just to provide a little bit of general overview and insight into that. So we definitely

Speaker A (00:33:54 - 00:33:59)

recommend for students who are interested in specific teams or getting to know coaches reaching out

Speaker A (00:33:59 - 00:34:07)

to that coach, getting to know the coach asking about, you know, what positional needs there are on

Speaker A (00:34:07 - 00:34:13)

the team, you know, what does that schedule look like? What other teams are you playing? If you have

Speaker A (00:34:13 - 00:34:18)

any film, what clubs you're a part of? If you play for a school team, a town team, things like that,

Speaker A (00:34:18 - 00:34:24)

sharing more information. I think it's great when students establish a relationship with the coach

Speaker A (00:34:24 - 00:34:36)

14 that they're interested in playing for. I mean, am I forgetting anything there or in about

Speaker C (00:34:36 - 00:34:42)

our athletics? I wanted to add, if you have a child that is not specializing in a sport but would

Speaker C (00:34:42 - 00:34:49)

love to play but not competitively, we have club sports in all of our athletics and it is just a

Speaker C (00:34:49 - 00:34:55)

wonderful chance for your child to get that experience of being on a team without out having to

Speaker C (00:34:55 - 00:35:03)

travel and then to have that extra, you know, the extra practices that a team member would have.

Speaker B (00:35:03 - 00:35:12)

But club sports is a great way for your children to get involved. Absolutely. And I think that we

Speaker B (00:35:12 - 00:35:20)

have a panel coming up actually in the next week about our recruiting process. Recruiting is a,

Speaker B (00:35:21 - 00:35:26)

I would say a strong term for the way that we approach athletics just because their

Speaker B (00:35:27 - 00:35:33)

athletics is a strong piece to our community but it's not, it's absolutely not a whole student,

Speaker B (00:35:33 - 00:35:39)

it's not kind of that holistic look at what the student brings in as excited about. So

Speaker B (00:35:40 - 00:35:45)

absolutely reaching out to coaches, making those connections, being able to speak about their

Speaker B (00:35:45 - 00:35:49)

experience, but also ask your questions. All of our programs are different. All of our coaches are

Speaker B (00:35:49 - 00:35:54)

different and so getting to know what that looks like and what those teams, how those teams function,

Speaker B (00:35:54 - 00:35:59)

what their leadership structures are and also what their growth progressions look like from their

Speaker B (00:35:59 - 00:36:04)

JD teams to their varsity teams and what those look like within specific programs. There's some great

Speaker B (00:36:04 - 00:36:10)

questions and some great places to start with student athletes but like we said really it's an

Speaker B (00:36:10 - 00:36:15)

opportunity as well to try something new. So there's no expectation that athletes come in with

Speaker B (00:36:15 - 00:36:19)

strong backgrounds in sports. It's something that they can absolutely cultivate when they get to

Speaker A (00:36:19 - 00:36:27)

campus as well. Absolutely. Yes, so we do have an athletic requirement and an exeter but that does

Speaker A (00:36:27 - 00:36:32)

not mean as we've all set playing a varsity sport or something like that. Our students are doing a

Speaker A (00:36:32 - 00:36:38)

lot of different things. At the end of the day, the biggest thing, the two biggest things that

Speaker A (00:36:38 - 00:36:44)

occurred to me about this place are the opportunities in the connections and talking about those opportunities.

Speaker A (00:36:44 - 00:36:48)

We have so many different opportunities for students at many different levels,

Speaker A (00:36:48 - 00:36:53)

athletically, in terms of student clubs, organizations. Like I said at the beginning of the car,

Speaker A (00:36:53 - 00:36:58)

the students for Exeter Summer only have a taste of these opportunities out there. They have only a

Speaker A (00:36:58 - 00:37:04)

handful of the 180 student clubs and organizations and opportunities that they'll be able to take

Speaker A (00:37:04 - 00:37:09)

advantage of during the year. Though we have more students around them to get to know

Speaker A (00:37:10 - 00:37:14)

and things like that, the connections, like we said throughout this call, students to students,

Speaker A (00:37:14 - 00:37:20)

peers to peers, but also adults on campus are really unmatched and of course that's strengthened

Speaker A (00:37:20 - 00:37:26)

through carcness. While keeping an eye on our time, I think we're going to wrap up the call.

Speaker A (00:37:27 - 00:37:32)

We do appreciate all of your questions. We appreciate your time and again thank you

Speaker A (00:37:32 - 00:37:38)

also much for your understanding and your flexibility. It sounds like there were some issues with the

Speaker A (00:37:38 - 00:37:44)

registration. We do apologize for any confusion there. Please know this call was recorded entire time.

Speaker A (00:37:44 - 00:37:50)

This can be accessed on a student's applicant portal. We are also available to answer your questions.

Speaker A (00:37:51 - 00:37:56)

We are part of a much larger admissions team. We are here to support you throughout this process.

Speaker A (00:37:56 - 00:38:06)

As we've said, we have a lot a lot of opportunities to get to know us as a team, us as a school,

Speaker A (00:38:06 - 00:38:10)

our students who are living this every single day. We encourage you to continue to take advantage of

Speaker A (00:38:10 - 00:38:19)

those. To wrap things up, I guess last question for the team. I think gave advice for students for

Speaker A (00:38:19 - 00:38:26)

the interview and things like that, but do we have any advice for parents? I myself am not a parent.

Speaker A (00:38:26 - 00:38:30)

I know we got two other parents on this call. I'm going to put the other parents on the spot a little

Speaker A (00:38:30 - 00:38:35)

bit. Do you have any advice, parting advice for parents navigating this process possibly for the

Speaker C (00:38:35 - 00:38:42)

first time? I would say just enjoy every minute that you have with your child and to know that when

Speaker C (00:38:42 - 00:38:47)

your child is here they will be loved, they will be protected and they will be very safe, but you'll

Speaker C (00:38:47 - 00:38:53)

never be replaced. So just every day is precious every minute with your child and just enjoy the journey

Speaker C (00:38:53 - 00:38:59)

and reassure them that it is so so exciting. I'm glad they're having a wonderful experience that I

Speaker C (00:38:59 - 00:39:05)

could summer, and it's just we would be thrilled that they were here full-time as custodians.

Speaker B (00:39:08 - 00:39:17)

Well said Ann, and I think the last thing I will add is our students are the most powerful force

Speaker B (00:39:17 - 00:39:23)

in our community. So if you have the opportunity to get to meet them at one of our panels or be on

Speaker B (00:39:23 - 00:39:28)

campus around them, if you're able to come for an in-campus visit and really see our students in

Speaker B (00:39:28 - 00:39:34)

action, ask them your questions, get in conversations with them, they would be delighted and they are

Speaker B (00:39:34 - 00:39:39)

they are just such wonderful resources to each other, we learn we learn new things as adults in

Speaker B (00:39:39 - 00:39:44)

the community every single day. So if you have the opportunity to meet our students out there,

Speaker A (00:39:45 - 00:39:55)

I encourage you to do so. Well thank you both and just to cap that off, it's okay to be nervous.

Speaker A (00:39:55 - 00:39:59)

I get a lot of I have a lot of conversations with family

Speaker A (00:40:00 - 00:40:04)

who start off, well, I'm a little nervous. And I always say it's okay. You should be nervous.

Speaker A (00:40:04 - 00:40:08)

I think Eileen said it. This is the, you know, the most important thing in your life. So it's okay

Speaker A (00:40:08 - 00:40:15)

to be nervous. I think it's important. And I'll quote, you know, one of my mentors, that's the beauty

Speaker A (00:40:15 - 00:40:19)

of these schools to make you nervous. That's where the growth happens. You know, be nervous a little

Speaker A (00:40:19 - 00:40:27)

bit. And yeah, your student will do well. Let them learn about the school. Let them find what excites

Speaker A (00:40:27 - 00:40:33)

them. And yeah, yeah, let them, let them drive the process. And we appreciate you as parents of

Speaker A (00:40:33 - 00:40:39)

you being so invested in taking the time to be with us this evening to ask your thoughtful questions.

Speaker A (00:40:39 - 00:40:44)

Your students have asked us a lot of thoughtful questions as well. So if you've had a question and your

Speaker A (00:40:44 - 00:40:49)

student has attended one of our in-person sessions, don't be afraid to ask that student. It might

Speaker A (00:40:49 - 00:40:52)

have been repeated already, but also ask our team. We're here to help support you guys through this

Speaker A (00:40:52 - 00:40:57)

process. But again, thank you all so much for being with us tonight. We hope you enjoyed this

Speaker A (00:40:57 - 00:41:02)

session. Again, this recording will be available probably tomorrow on the student's applicant portal.

Speaker C (00:41:02 - 00:41:08)

And thank you for being with us. Have a wonderful night. Reach out to us if you need anything.

Speaker A (00:41:08 - 00:41:11)

Thank you so much. Bye everyone. Have a good night.
